

**LSD and OBPP PROCEDURES FOR INTERIM COMMITTEE
REVIEW, REQUEST, AND DRAFTING OF AGENCY LEGISLATION**
Updated October 2009

- As part of the Executive Planning Process, agencies must submit to the Office of Budget and Program Planning (OBPP) a description of proposed legislation on a form provided by OBPP by April 2010.
 - ✓ The form provides a brief description of the proposal, an explanation of why the legislation is necessary, the fiscal impact of the legislation, and other general information.

- The OBPP and Governor's Office will review the agencies' description of proposed legislation from mid-April through late May 2010.

- The OBPP will forward to the Legislative Services Division (LSD) for distribution to the appropriate interim committees the brief descriptions of proposed legislation that has been approved for introduction during the 2011 session. The committee's review will be limited to the description submitted to the OBPP, unless the agency supplies other information.
 - ✓ If an interim committee wants to receive copies of the descriptions of all proposed agency legislation (not just those approved by the OBPP and Governor's Office), these forms are available upon request from the OBPP.

- Each interim committee will review the agencies' descriptions of proposed legislation between June and September 15, 2010. The purpose of the review is as a courtesy to the agencies to allow LSD staff to draft agency bills prior to the election, to give the Legislature a heads up on the agency proposals, to prevent pressure on the few individual legislators that are able to request bills prior to the general election (holdover senators and unopposed candidates), and to allow the staff to concentrate on legislators' bills after the election. The bills will be available for preintroduction by a legislator selected by the agency and available for consideration early in the session.
 - ✓ An interim committee's action on an agency proposal is not an endorsement or a position on the merits of the proposal. Typically, a draft is not available yet and the agency may provide only limited information. The authorization to draft allows the proposal to be drafted earlier and

- preintroduced by a legislator for consideration by the Legislature.
- ✓ The preferred method for the committee is to authorize the drafting of the package of agency proposals in a single motion. However, if the interim committee does not request a particular agency proposal, the agency may still find a holdover or unopposed legislator to request drafting of the proposal in order to meet the preintroduction deadline.
 - ✓ After consultation with the agency, an interim committee is encouraged to consolidate related bill draft requests.
- An interim committee may request that an agency present its proposals any time after the OBPP has forwarded the proposals in late May 2010. Interim committee review of agency legislation for the purposes of requesting bill drafts must be completed by September 15, 2010 (Legislative Council Rule).
 - All agency bill drafts authorized and requested by an interim committee must be:
 - ✓ submitted to the LSD and identified by OBPP with the appropriate LC bill draft request number for processing, preferably as early as possible but no later than November 15, 2010; and
 - ✓ preintroduced by December 15, 2010 (Joint Rule 40-40(5)(a)).
 - Except for bill drafts for requests by newly elected officials, if an agency bill draft requested by an interim committee has not been received by LSD for processing by November 15, the draft loses its priority (Joint Rule 40-40(2)(b)). The bill request will be placed on hold and go to the bottom of the drafter's pile, which may result in the bill not meeting the preintroduction deadline.
 - A preintroduced agency bill will:
 - ✓ be assigned a bill number (e.g., House Bill No. 8, Senate Bill No. 5);
 - ✓ contain a line under the sponsor's name indicating that the bill is "by request of" the agency; and
 - ✓ be printed before the Legislature convenes on January 3, 2011.
 - Failure to preintroduce an agency-requested bill will result in the bill's cancellation and it will be the responsibility of the agency to find a new requester for the bill draft subject to the bill request limitations placed on legislators. After the preintroduction deadline, a bill may not include the "by request of" an agency line.
