

Child Removal Summaries

The following contain summaries of the child abuse and neglect cases filed in Yellowstone County since January 1, 2015. All personal information identification has been redacted from the summaries to protect the privacy rights of the children. The Summaries include the age of the child at removal, whether the case has been determined to be subject to the Indian Child Welfare Act (ICWA), a summary of the fact pattern, and a summary of the reasons for removal.

DRUGS reflects that at least one parent was using drugs contributing to the removal,

ALCOHOL reflects at least one parent was using alcohol which contributed to the removal,

MENTAL reflects that at least one parent has a mental health condition or history that contributed to the removal,

ABUSE reflects that a child was subjected to physical harm that contributed to the removal,

SEX ABUSE reflects that a child was subjected to sexual abuse that contributed to the removal,

NEGLECT reflects that a child was subjected to neglect that contributed to removal,

PFMA reflects that at least one parents was engaged in domestic violence that contributed to the removal, and

INCARCERATION reflects that at least one parent was incarcerated in prison or jail or was under probation or parole prior to the removal or as a result of the facts that caused the removal.

Finally, the summary includes the current status of the case. DISMISSED means the case has either been transferred to a different jurisdiction or dismissed either due to placement with the noncustodial parent or because the judge found the matter to be resolved. XTLC reflects the case is under an extension of temporary legal custody. TLC reflects the case is under temporary legal custody. SC reflects the case has just reached the show cause portion of the process. TIA reflects the case is under temporary investigative authority. XTIA reflects the case is under extension of temporary investigative authority.
